---

On Tue, Feb 5th Team Snaptek sent out a message for Bob Renner that included everyone that was on the AZ-geocacheing mailing list with the exception of any address that Team "Wyle E" was subscribed with.

The message detailed a prank to be played on Team "Wyle E" involving the cache "West of the pecos" that would be placed.

I've put together a [behind the scenes](#) account of some of the people that were involved in the prank that is very funny at times and will give you a little more information about why and when certain logs and mailing list messages were sent and some talk about ideas that were never tried.
